Myionu™ Asset Protector Pro

Myionu Protector range of GPS Tracking systems have been specifically designed for users that only require a basic real-time tracking system for emergency use. There are no monthly service fees, contracts or software to purchase. Using the Prepay SIM provided, the package comes ready to go with 35 inclusive location updates. Because the SIM Card never expires you'll always have access to the network.

Myionu Asset Protector Pro is a real-time battery operated tracking device with location on demand.

There are no monthly service fees, contracts or software to purchase. Using the Prepay SIM provided, the Myionu Asset Protector package includes a wall charger and comes ready to go with 35 inclusive location updates, additional updates are just 15c in Australia and 75c elsewhere. Because the SIM Card never expires you'll always have access to the network.

Location can be requested on demand by sending an SMS to the unit, the unit will then send the location back in an SMS which contains a link to Google maps which is free on most Smart Phones.

Key Features

- No monthly service fees
- Live location on demand
- 5 year battery life
